OVERVIEW

The Certificate IV in Health Care has been designed to offer a clear pathway from a Certificate II in Medical Service First Response to a Diploma of Emergency Health Care and is best suited to individuals who are seeking careers in providing Emergency response in Mining, pre-hospital emergency medical care on ambulance, industrial or offshore environments or where urgent professional care is required.

DNA Kingston Training have been delivering Training for 25 years, so be assured of attaining a highly regarded qualification with courses developed with national industry experts and Trainers with an exceptional depth of experience and qualifications.

The blended course delivery combines self-paced online learning (3-6 months), with 15 days of classroom / practical delivery as well as a required total of 80 hours of supported workplace / clinical placements and covers 9 core units and 7 elective units.

You are mentored through the course with your own portfolio manager.

Enrolments are open, please contact us to find out more.
